Stocks—The new week opened with an excited and irregular market in which the principal features were the weakness in Manhuttan and Jersey Central, which latter to a certain extent affected the other anthracite companies, and the extraordinary strength shown by the Hocking Valley and some other of the specialties. The elimination of the short interest in Manbattan caused it to be offered down this morning, which met several stop orders, and a drop of 9 points in the first fifteen minutes was the result. This brought in liberal buying which quickly rallied it 6 points, though it shows a net loss of 7 per cent at the close. Jersey Central was sold freely throughout the day, being the weakest stock on the list. The Vanderbilts and Grangers were quiet throughout the day. There was some London buying of Nickel Plate. but after opening higher it sold off steadily throughout the day. The strength in the market was shown entirely by the specialties, and Hocking Valley, Susquehanna and Western, Atlantic and Pacific, Ohio Southern and Toledo and Ohlo Central preferred, show meterial gains. opening was bregular but generally lower, the differences being for small fractions in a maj rity of cases, while Jersey Central was off 1 per cent. The

the first fifteen minutes. Prices then railied, after which they were alternately weak and strong until the last hour, when rumors to the effect that an influential operator was in trouble | Low Middling again, caused free selling and the mar-ket closed weak in many cases at the lowest of the day. Money was run up to 10 per cent in the Fair. Nom.

Afternoon which aided the final deline. Sales, 528,045 shares; Hocking Valley recorded 65,459, Jersey Central 61,340, Lackswanna 53,830. Hocking Valley is the only active stock which is higher, its gain being 11: Manhattan lest 7, Jersey Central 61, Lackswanna 1, Nickel Plate preferred 2, the common 11, and Union Pacific 1. Railroad bonds showed more strength than shares, but were equally irregular. Sales aggregated \$2,142,300; At-lantic and Pac fic incomes furnished \$495,000, Ohio Southern incomes \$235,-000, and Hocking Valley fives \$210, 000. The features of the trading were the strength in the Detroit, Macking and Marquettee issues and the Ohio Southern ir comes, and the weakness in the Jersey Central issues. Closing prices show irregular changes. Alton sinking funds rose 2, to 125; Chicago and East Illinois consols 22, to 113; Derroit, Mackinac and Marquette land grants 3, to 431, and the incomes 2, to 11; Ohio Southern incomes 21, to 411. Jersey Central consols lost 21, to 1111, the duben ures 61, to 83; Denver and R'o Grande Western firsts, 31, to 76, and Indiana, Bloomington and Western seconds 31, to 711.
